

MECHANICS OF MASONRY STRUCTURES **strengthened with composite materials** *Modeling, testing, design, control*

Dear Colleague,

we are very pleased to announce the 4th International Conference on

MECHANICS OF MASONRY STRUCTURES - strengthened with composite materials – MuRiCo4

That will be held in **Ravenna, Italy from 9 to 11 September 2014.**

The conference website is

www.murico4.dicam.unibo.it

In this site, you will find further information about submission of abstracts, registration fees, committees, and so on.

The deadline for abstract submission is December 23rd, 2013.

The accepted papers will be included in the Seminar Proceedings and published in the journal of **Key Engineering Materials**. Key Engineering Materials (www.ttp.ch) is indexed by major index services: SCOPUS, Ei Compendex...etc.

We look forward to welcoming you to MuRiCo4 in Ravenna

Prof. Angelo Di Tommaso

Prof. Francesco Ubertini
